

## BASIC TRAINING AND EDUCATION SESSION

**Monday May 5<sup>th</sup> 7PM-9PM**

**(Registration at 6:45 PM)**

**Gilliam Building**

**77 Reads Way**

**New Castle DE 19720**

**What is SKYWARN® ?? :** SKYWARN® is a volunteer public service that supports the National Weather Service (NWS) and the surrounding communities in communicating severe weather related events to the NWS in Mount Holly, NJ. SKYWARN® Spotters help relay important ground information as to what is actually occurring during severe weather events because radar can not accurately interpret what is happening on the ground.

**Who can volunteer ??:** **Anyone over the age of 16** with an interest in weather and public service qualifies for SKYWARN® Spotter Training. Once trained, you are a qualified SKYWARN® Spotter

**Do I have to be an Amateur Radio operator to participate ?? :** **NO !** Spotters come in from all areas of our community from Weather Enthusiasts, Amateur Radio Operators, Lawyers, Doctors, and just everyday people. Anyone above the age of 16 can become a trained spotter. You do not need to be an amateur radio operator or be extremely educated in meteorology to understand the basics.

### **Free To Register and Attend :**

An Online Enrollment form is available on the NWS Mount Holly SKYWARN® Training Page located at

<http://www.erh.noaa.gov/phi/skywarn/training.html>

or direct link to the form here:
